DAILY EXPENSES.

With the expenses mounting up to nearly \$1500 a day, the men, at least who believe in conservation of finances, think the State may be saved money if at the gutset the legislators be informed that a short seasion is desired by the taxpayers.

There is a movement on foot to put a proposition up to the Governor to hold the session to fifty days. That plan is to have the Governor notify the branches of the Legislature that he will not sign bills after fifty days. Until today the duration of the session was estimated to last from seventy to eighty days.

MONEY PRITTERED AWAY.

INTRODUCTION OF BILLS.

The introduction of bills will take but a few days at this session, as each legislator may introduce but two measures, and those with the consent of three-fourths of the members of the house in which the bills are to be offered. There is little question that members will not have trouble in securing the three-fourths vote for their measures, as all have at least two bills of interest to their locality or the administration which they are desirous of offering. This will swell the total of proposed legislation far beyond past records, putting the grand total far above the 4000 mark.

WASHINGTON, March 10.—Capt.
"Bill" McDonald of Texas, personal
boyd guard for President Wilson during the days after the Baltimore convention, and before the election, is
going-back to Texas. He is tired of
the effete East, and its trappings and
flourishes pall upon him.

"I'm going back to Texas," he said
in mournful tones. "I don't like these

HIGH INSURANCE DUE TO FIREMEN.

[ST DIRECT WIRE TO THE TIMES.]

BAN FRANCISCO BUREAU OF
THE TIMES, March 18.—[Exclusive
Dispatch.] W. D. Fennimore, president of the Downtown Association,
this afternoon startled Mayor Rolph
and the Civil Service Commission
when at a joint conference he asserted
that 1 to 5 per cent. of the fire insurance rates charged in San Francisco
were "on account of the inefficiency
and the personnel of the fire department."

MATOR TAKES EXCEPTION

pers of the Fire Underwriters by tele-phone were unsuccessful and the question was dropped for the moment, to be taken up later for full analysis. Fennimore's point was raised at a meeting of the Downtown Association, the Chamber of Commerce, the Mayor and the Civil Service Commission. TO EXAMINE ALL MEMBERS.

George Boardman, secretary of the Chamber of Commerce, declared that the chamber favored physical examination of firemen from the top of the department to the bottom.

He referred to the question that had been raised as to the need of physically examining battalion chiefs for promotion to the place of assistant chief engineers and said that it was extremely necessary to make such examinations.

An assistant fire chief, he said, might be required to work forty-eight hours without sleep, and it was especially important, Boardman said, to ascertain whether he was physically able to withstand such an ordeal.

Police Keep Back Mob Intent on "Ducking Women."

(BT CABLE AND A. P. TO THE TIMES.)
LONDON, March 10.—Fears lest the militant suffragettes might annoy King George and Queen Mary and create a disturbance made the royal opening of Parliament and the procession thereto from the palace an occasion today charged with nervous-(BY CABLE AND A. P. TO THE TIMES.)

TEXT OF PETITION.

The text of the petition which the suffragettes proposed to hand to King George was as follows:

"The unrest among women and their militant revoit can never be ended except by removing their discontent. Votes for women is the only cure for militancy.

"The revolting and futile policy of releasing hunger strikers and rearresting them simply will bring discredit to the minister responsible therefor. Such treatment will never break the spirit of the women, though it will very likely bring about a tragedy for although the women cannot be defeated, they can be killed by persecution.

of hostility against the suffragettee by the vast throng sathered to see the royal procession. The five women required the protection of a hundred policemen to keep back the mob, which was exasperated by the recent outrages of the militants. Two other suffragettes in the vicinity of Mariborough escaped being roughly handled only through efforts of the police. There were shoults of "duck them into the lake" by a mob of 200, all bent on taking the women from a music hall, Mrs. Emmedine Pankhurst referred to the women's attempt to present petitions to the King.

MRS. PANKHURSTS VIEWS.

She said:

"This losses thus far this year were receptionally heavy. The losses for February this year were well above the normal and were increased by some heavy losses the militants of the police. Speaking in a music hall, Mrs. Emmedine Pankhurst referred to the women's attempt to present petitions to the King.

MRS. PANKHURSTS VIEWS.

She said:

"This losses thus far this year were still a some of the south and several bad fires in the South and several bad fires in Chicago. During the month there were no less than 321 fires causing an each instance. A list of some of these fires is given below:

NOTE OF THE UNION.

The union to which the militant suffragettes belong issued the following note:

"The presentation of a petition to the King and Queen was no disrepent to their Majesties. The aim was to call the King's attention to the fact that there are in power ministers incapable of dealing with the present very serious situation, ministers who are quite out of touch with popular

TOPEKA (Kan.) March 16.—Gov.
Hodges sent a message to the Legislature today urging the commission form of legislative government. He proposes to replace present legislative representation with two members from each congressional district who would devote their entire time to State business.

"In common with a large and growing number of thoughtful people," said the message. "I am persuaded that the instrumentalities for legislation provided for in our State Constitution have become antiquated and inefficient.

BAVANNAH QUOTATIONS. NEW MANAGER INSTALLED.

Decidnous Fruit Distributors Secure
Services of Expert of Long Experience.

Charles E. Virden of this city has been made manager of the California Fruit Distributora, succeeding F. D. McKevitt, resigned. He will take up his duties flaturday and will move his family to Sacramento shortly afterwards.

Virden came to this city from Butte a year ago and engaged in the fruit and produce business, with offices in the Grosse building. Frevious to coming here Virden was head of a long chain of fruit-jobbing houses in the Northwest. He is at present president of various companies doing a produce business in Salt Lake City, Butte, Pocatello, Spokane, Seattle, Portland, and other places in the Northwest.

Though not connected with the California Fruit Distributors it has been known for some time that Virden was one of those being considered as a successor to McKevitt. His experience of some fifteen years in both the shipping and jobbing end of the business should make him a successor fol head of the deciduous fruit growers' association.

Shotgun vs. Death Threats in Bitter Race War.

If You Value Your Lives. Leave," Is Warning.

Woman Fires on Persecutors; Police Aid Asked.

Grim reminder of the days of the Ku-Klux Klan, wherein sectional race prejudice burst all bonds and law was made at the rope's end, is to be found in a bitter race war now being waged in one of the pretty residence districts of Hollywood. Already the shotgun and rifle have been made arbiters, and the bitter feeling between the whites and the negroes grows daily more tense.

Rendered desperate by what they declare to be the failure of the city and Federal authorities to protect their lives and property from midnight attacks, the negroes have taken the law into their own hands and declare that they will shoot to kill if necessary to maintain what they believe to be their rights. In the meantime the white neighbors are in an uproar over the stand taken by the negroes and the situation became so acute yesterday that Folice Captain Murray considered it the part of wisdom to detail Officers Glenn and Stevens in addition to two regular patrolmen to prevent possible fatalities.

To E. T. Eerl:
You ask me why Mr. Horton and Mr. Hanna have resigned from the District Attorney soffice. I suggest that the best sources of information in that regard are Mr. Horton and Mr. Hanna.
Mr. Ford informs me that he has no intention of resigning.

Baking Powder

Absolutely Pure

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder is more economical than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mintures made in imitation of genuine baking powders, but containing alum, are frequently distributed from door to door, or advertised and offered at a low price. Such are mixtures of unhealthful ingredients. In England, France, Germany and some sections of the United States the sale of alum baking powder is prohibited by law. Alum is a corresive mineral acid, and physicians condemn baking powders containing it.

all are in accord, loyal to the boss, and to the interests of the people.

You ask me why I spent \$200,000 of the taxpayers' money last year. There are many answers that I might give. I will submit one, however, which is that I didn't, nor anything like it. If you refer to the year ending June, 1912, in which the McNamara expenses were incurred, I have answered.

You sak if he did not support me in my election two years ago. I do not know, but I hope he did. It would be one redeeming feature and indicate good judgment. But that fact will not help him if the officers succeed in arresting him. One of my first duties as District Attorney was to try a man three times for murder who had been a staunch supporter in the county convention. Such is life. I recently prosecuted you, Mr. Earl, when a grand jury indicted you for a felony. That was not because I disliked you, but because I thought you guilty. Tou remember you escaped on a technicality in the Court of Appeals.

on a technicality in the Court of Appeals.

You ask how gamblers and crooks can carry on their swindling games. I do not know. I am not acquainted with any of them. I am not running a police department and have no men on the streets for that purpose. This is a law office. Our work is in court and in securing evidence to substantiate cases brought to us. But all cases must be brought to us. But all cases must be brought to us. I believe that all cases of that nature complained about to this office have been promptly and energetically dealt with so far as our sphere of activity went. If you or your corps of sleuths can find one solitary case where the complainant has complained to this office and been refused attention, you should mention it specifically. I know of none.

Every dollar of county money expended in these matters has been accounted for by me in the most minute detail to the satisfaction of grand juries, who have carefully looked into the accounts, and other officers who had authority to, and did, supervise them.

If what I was able to achieve had cost the county of Los Angeles a million dollars more than it did, I would have spent it just the same, for as a result of these expenditures, together with the energy and fidelity of those that were employed, no more lives have been sacrificed, and no more property dynamited.

Los Angeles county is proud of the fact that it was her energy, her money and her determination that the right should triumph that ended this reign of terror and of crime, and the District Attorney of Los Angeles county is satisfied with his humble participation in the struggle.

You ask me whether I intend to resign from the District Attorney's office. Permit me to say that the irremendous strain and struggle of the past two years, coming as they did on top of a cruel, unjust and unnecessary political attack, have made a quiet and orderly practice of law, with less hard work and more remuneration look very alluring to me at times; but I have no present intention of unitting this work, although I know that more ease and peace and better pay await the end of my term of office. But wifile admitting the temptation is great, I am not considering the step, except as one sits down with his pipe and builds air castles and pleasant dreams out of smoke—but after all they are only smoke.

P. S.—My dear Mr. Earl: Since dictating the above at the request of your reporter, I see by your evening paper that you ask me some more questions, which I will answer. As I don't believe you will publish my statement, I will ask the morning papers to do so, and you can get it from them and publish it it's you wish to enlighten your readers.

You ask why John North and Hartley Shaw resigned. Neither one of them has been in my office during my present term. They resigned so lo

Miss Casey called attention to the fact that all the schools study the same subject at the same time and consequently as many as 600 teachers will call for books on a given subject simultaneously.

"If we are to do the work," said Miss Casey, "we must have tools to work with, and when the teachers call for books demanded in the schools we should have something to give them."

She also called attention to the loss of 1400 volumes in the destruction by fire of the Fourteenth-street school some weeks ago, and to the loss of 100 specially fine volumes that had been sent to the Custer-avenue school only the day before it was burned. Her appeal for the books was so earnest that the Einance Committee voluntarily took charge of the subject to see if any way can be devised to secure the desired books, which will number about 15,000 volumes.

Three Years Not Long Enough Time to Complete Necessary Work, the Corporations Contend.

Unable to decide yesterday whether the franchise offered by the Supervisors will suit them, attorneys representing the Southern California Gas Company and the Los Angeles Gas and Electric Corporation deferred action for a week. The principal objection is that the franchise requires the public utilities companies to complete work within three years.

Byron C. Hanna, chief civil deputy of Capt. Fredericks, drew up the document. He said if at the end of three years more extensions are decided excellention for additional franchises.

"I do not like to say what we will do," declared Attorney Haskins, representing the company. "I believe, however, that the State Railroad Commission will not approve such franchises. They do not give us time to put through extensions. Corporations are now fully regulated. All we can do is to lay pipes through new territory. Rates are fixed by law.

gain any territorial acquisitions in Eastern Burope as a consequence of the Balkan war.

These latter powers are undoubtedly exercising or attempting to exercise a potent influence in medifying the military and naval movements of both the Ralkan states and the Ottoman Empire. "In chaining the scope of the conflict and deciding upon the fruits of victory."

"In these concerts of action," says an eastern journal, "suce, for instance, as it is proposed that the United States, joining with two of the major South American powers, might form to insure stability in Central America and Mexico, Prof. Blakeslee of Clark University sees the nuclei of an international legislature able to state and to proclaim the will of a continent respecting happenings upon it, and curbing, if not ending, the separation of nations and their disposition to settle things by force of arms." In short, as this American student of international law and ethics points out, the area in which war is to be permitted to so so in the future is to be restricted, not only by treaties which govern issues that are justifiable, but also by such unions of governments as enable them to voice warsings and to fir limits for disputants whose feuds arise from radically different racial and religious convictions or from the selfsh ambitions of persons without sense of law.

There has been no great war between first-class European powers since the Franco-Prussian conflict. While the leading mations have swollen their armies and navise they have not used either men or ships in actual conflict. There have been more judicial settlement of international disputes during the last generation that at any previous period of equal length during the world's history. The nations of Europe are even now informally agreeing upon collective continental policy wiff respect to, a given dispute such as the Turop-Balkan war. This is likely to be followed by regular and formal sittings of representatives of nations in which disputes will be affected by it and the outlook for world-wi

a week or case a month. Socialism issues to pay checks at any time. Organized labor selects it trade at which it will work. Socialism designates the kind of work its followers shall do. Organized labor bargains for the cash compensation its members shall receive. Socialism pays no cash, and designates the quantity and quality of food and clothing that shall be accorded to the worker for his work. Organized labor selects its own brand of religion. Socialism recognizes no religion. Organized labor preserves and protects the individuality of its members. Socialism crushes and disregards all individuality. Organized labor means social, industrial and political freedom for the members of its organization, although it denies thase rights to non-union workers. Socialism denies any freedom of any kind to the individual.

nies any freedom of any kind to the individual.

The only difference between the sinvery which Abraham Lincoln, aided to abolish and the sinvery which Marx and Frudhomme seek to establish is that the black slave had a human being for a master, while the Socialist has a co-operative commonwealth for his owner.

Socialism forbids, personal initiative, independence and energy in industries. It treates dependence and energy in industries. It treates dependence and destroys independence. It organized a condition of servitude instead of a condition of freedom.

The socialistic communities which have been organized in the United States have all come to grief after a brief existence because they misinterpreted and misapplied the truth announced by Jefferson that "all men are created equal." The equality promulgated by the Declaration of Independence was a political equality only. It was the truth that all men are equal before the law, and set the folly and falsehood that they were equal in attainments, equal in strength, equal in herein power or equal in morality. The Declaration demanded equality of opportunity, not equality of result. O IVING UP THE PRILIPPINES.

O The national Democratic platform calls for a surrender of the Philippines, whether the Pilipines wish to be surrendered to themselves or anybody else or not. President Wilson has indorsed the platform and cordially scoopted a nomination and election upon it. Secretary of State Bryan (it it not respectful now to call him "Billy Boy") has for years, 'rom every rostrum in the land, demanded the giving up of the islands which he—more than any one man in the nation—belped the United States to acquire by his efforts in procuring a ratification by the Senate of the treaty of Paris. Bills have been introduced in Congress by Democratic statemen providing for the immediate 'neutralization' of the islands by inviting England and Germany and France and Japan to share the white man's burden and assist us in governing them for a few years until they can be turned loose to shift

SHARK WITH TRIANGLE BODY.
[London Standard:] A variety of fish new to science was captured by the Anstralian fisheries investigation vessel Endeavor during a recent cruise. This novelty in sea dwellers apparently belongs to the shark family and is eighteen inclusiong. H. V. Dannevig, the asheries director, describes it as the most curious fish he has seen.

Instead of scales the skin of the 5th is covered with small plates prepenting the appearance of a course rasp. The body is triangle shaped, the fint under part being so formed as to enable the fish to rest on the soft mud. It has serrated teeth and very tiny eyes, in contrast with other fish found at considerable depths, which usuafly have very large optics.

What Food shall I give Baby?

Now, is it not reasonable to assume that an infants' food that has been in general-use for upwards of fifty years, and that has been used, in preference to others, is most of the Royal Nurseries of Europe, is likely to prove a suitable diet for the average infant? Such a food is Savory & Moore's, and all mothers who decide in its favour may be congratulated on the wisdom of their choice.

Infants reared on Savory & Moore's Food are characterised by strong, sturdy limbs, firm flesh, plenty of hone and muscle, easy teething, freedom from infant allments, and that happy disposition which is the surest sign of perfect health. Ask your Druggist to get you a tin.
